(QUESTIONED DOCUMENT UNIT)

Lab Case No:- 073/074-CPFSL-5093-DOC-155 (L)

Date:- 2074-01-11

Received From:- Police Headquarter, Crime Investigation Department, Naxal

Ref. No.:- ५१९(०७३-०७४)

Dated:- 2074-01-10

Ch. No.:-7754

Date of receipt:- 2074-01-10

Seal:- Intact.

EXHIBIT

QUESTIONED:- The questioned photocopy documents marked Q1 and Q2; the red enclosed portion of the document marked Q3; the red enclosed portion of the document marked Q4; the red enclosed portion of the document marked Q5; the red enclosed portion of the document marked Q6; the red enclosed portion of the document marked Q7; the red enclosed portion of the document marked Q8; the red enclosed portion of the document marked Q9; the red enclosed portion of the document marked Q10; the red enclosed portion of the document marked Q11; the red enclosed portion of the document marked Q12; the red enclosed portion of the document marked Q13; the red enclosed portion of the document marked Q14; the red enclosed portion of the document marked Q15; the red enclosed portion of the document marked Q16; the red enclosed portion of the document marked Q17; the red enclosed portion of the document marked Q18.

STANDARDS:- The specimen photocopy documents marked S1 and S2; the blue enclosed portion of the document marked S3; the blue enclosed portion of the document marked S4; the blue enclosed portion of the document marked S5; the blue enclosed portion of the document marked S6; the blue enclosed portion of the document marked S7; the blue enclosed portion of the document marked S8; the blue enclosed portion of the document marked S9; the blue enclosed portion of the document marked S10; the blue enclosed portion of the document marked S11; the blue enclosed portion of the document marked S12; the blue enclosed portion of the document marked S13; the blue enclosed portion of the document marked S14; the blue enclosed portion of the document marked S15; the blue enclosed portion of the document marked S16; the blue enclosed portion of the document marked S17; the blue enclosed portion of the document marked S18.

LABORATORY EXAMINATIONS

✓✓

We have carefully and thoroughly examined the original documents of this case in all aspects of handwriting identification and detection of forgery with the scientific instruments such as stereo microscope, Docucenter, VSC 6000 etc. under different lighting conditions and we are of the opinion that:

1. The questioned photocopy paper marked Q1 when compared with the specimen photocopy paper marked S1; the following observations have been made:
 - The red enclosed portion of the document marked Q3 tally with the blue enclosed portion of the document marked S3, under superimposition of the document.
 - The red enclosed portion of the document marked Q4 tally with the blue enclosed portion of the document marked S4, under superimposition of the document.
 - The red enclosed portion of the document marked Q5 tally with the blue enclosed portion of the document marked S5, under superimposition of the document. The stroke after word reading as "चार" is missing in the questioned document marked Q5.
 - The red enclosed portion of the document marked Q6 tally with the blue enclosed portion of the document marked S6, under superimposition of the document.
 - The red enclosed portion of the document marked Q7 tally with the blue enclosed portion of the document marked S7, under superimposition of the document.
 - The red enclosed portion of the document marked Q8 tally with the blue enclosed portion of the document marked S8, under superimposition of the document.

 2. The questioned photocopy paper marked Q2 when compared with the specimen photocopy paper marked S2; the following observations have been made:
 - The red enclosed portion of the document marked Q9 do not tally with the blue enclosed portion of the document marked S9, under superimposition of the document.
 - The red enclosed portion of the document marked Q10 tally with the blue enclosed portion of the document marked S10, under superimposition of the document.
 - The red enclosed portion of the document marked Q11 tally with the blue enclosed portion of the document marked S11, under superimposition of the document.
 - The red enclosed portion of the document marked Q12 tally with the blue enclosed portion of the document marked S12, under superimposition of the document.
 - The red enclosed portion of the document marked Q13 tally with the blue enclosed portion of the document marked S13, under superimposition of the document.
 - The red enclosed portion of the document marked Q14 tally with the blue enclosed portion of the document marked S14, under superimposition of the document.
 - The red enclosed portion of the document marked Q15 tally with the blue enclosed portion of the document marked S15, under superimposition of the document.
- ✓✓

- 
Government of Nepal
Police Forensic Science Laboratory
- The red enclosed portion of the document marked Qd6 do not tally with the blue enclosed portion of the document marked S16, under superimposition of the document.
 - The red enclosed portion of the document marked Q17 do not tally with the blue enclosed portion of the document marked S17, under superimposition of the document.
 - The red enclosed portion of the document marked Q18 do not tally with the blue enclosed portion of the document marked S18, under superimposition of the document.

Note:- Photo 1 shows superimpositions of the documents.
